We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Riverside, California (the County), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated December 21, 2017.

Other auditors audited the financial statements of the Riverside County Flood Control and Water Conservation District, the Housing Authority of the County of Riverside, Riverside County Regional Park and Open-Space District, Perris Valley Cemetery District, Riverside County Redevelopment Successor Agency, and the Children and Families Commission of Riverside County, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

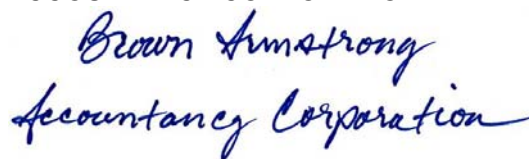

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

We have audited the County of Riverside's (the County) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2017. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The County's basic financial statements include the operations of the Housing Authority of the County of Riverside (Housing Authority), a component unit of the County that received \$81,878,557 in federal awards, which is not included in the Schedule of Expenditures and Federal Awards during the year ended June 30, 2017. Our audit, described below, did not include the operations of the Housing Authority because the component unit engaged other auditors to perform an audit in accordance with Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance and Supplemental Schedules

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our report thereon dated December 21, 2017, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. We did not audit the financial statements of the Riverside County Flood Control and Water Conservation District (Flood Control District), the Housing Authority of the County of Riverside (Housing Authority), Riverside County Regional Park and Open-Space District (Park District), Perris Valley Cemetery District (the Cemetery District), Riverside County

Redevelopment Successor Agency (Successor Agency), and the Children and Families Commission of Riverside County (the Commission) for the year ended June 30, 2017. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as it relates to the amounts included for the Flood Control District, Housing Authority, Park District, Cemetery District, Successor Agency, and the Commission are based on the reports of the other auditors.

The accompanying Schedule of Expenditures of Federal Awards, Supplemental Schedule of California Office of Emergency Services (CalOES) and Board of State and Community Corrections (BSCC) Grants, and Supplemental Programs Schedule for Office on Aging State Department of Aging Grants are presented for purposes of additional analysis as required by the Uniform Guidance and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards, Supplemental Schedule of California Office of Emergency Services (CalOES) and Board of State and Community Corrections (BSCC) Grants, and Supplemental Programs Schedule for Office on Aging State Department of Aging Grants are fairly stated in all material respects in relation to the basic financial statements as a whole.

**COUNTY OF RIVERSIDE, CALIFORNIA
NOTE TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2017**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all Federal award programs of the County of Riverside, California (the County), except for the Federal awards granted to the Housing Authority of the County, which is separately audited and reported on in accordance with the U.S. Office of Management and Budget (OMB) Uniform Guidance. Federal awards received directly from Federal agencies, as well as Federal awards passed through nonfederal agencies, primarily the State of California, except as noted above, are included on the schedule. The County's reporting entity is defined in Note 1 to the County's basic financial statements.

B. Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting for program expenditures accounted for in the governmental funds and the accrual basis of accounting for program expenditures accounted for in the proprietary funds as described in Note 1 to the County's basic financial statements.

C. Relationship to Basic Financial Statements

Federal award expenditures agree, or can be reconciled with, the amounts reported in the County's basic financial statements.

D. Relationship to Federal Financial Reports

Amounts reported in the Schedule of Expenditures of Federal Awards are in material agreement with the amounts reported in the related Federal financial reports for the Federal award programs.

E. Indirect Cost Rate

The County has elected not to use the 10 percent de minimus indirect cost rate allowed under the Uniform Guidance.

F. Loans Outstanding

The following programs had federally-funded loans outstanding at June 30, 2017 and 2016:

CFDA Number	Program Title	Amount Outstanding				June 30, 2017
		July 1, 2016	New Loans	Loan Payments	Forgiven	
14.218	Community Development Block Grant/Entitlement Grants	\$ 26,893,613	\$ 2,531,127	\$ (322,985)	\$ (630,825)	\$ 28,470,930
14.239	HOME Investment Partnerships Program	52,218,307	1,962,375	(556,628)	(652,027)	52,972,027

**COUNTY OF RIVERSIDE, CALIFORNIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2017**

I. SUMMARY OF AUDITOR'S RESULTS

FINANCIAL STATEMENTS

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified?	No
Significant deficiencies identified not considered to be material weaknesses?	No
Noncompliance material to financial statements noted?	No

FEDERAL AWARDS

Internal control over major programs:	
Material weaknesses identified?	No
Significant deficiencies identified not considered to be material weaknesses?	No
Type of auditor's report issued on compliance for major programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with the Uniform Guidance?	No

Identification of major programs:

CFDA Numbers	Name of Federal Program or Cluster
10.561	State Administrative Matching Grants for the Supplemental Nutrition Assistance Nutrition Assistance Program
14.239	HOME Investment Partnership Program
14.267	Continuum of Care Program
20.205	Highway Planning and Construction
93.558	Temporary Assistance for Needy Families
93.563	Child Support Enforcement
93.645	Child Welfare Services - State Grants
93.958	Block Grants for Community Mental Health Services
97.067	Homeland Security Grant Program

Dollar threshold used to distinguish between Type A and Type B programs:	\$ 3,000,000
Auditee qualified as low-risk auditee?	No

II. FINANCIAL STATEMENT FINDINGS

None noted.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None noted.

**COUNTY OF RIVERSIDE, CALIFORNIA
SCHEDULE OF PRIOR YEAR AUDIT FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2017**

I. FINANCIAL STATEMENT FINDINGS

Finding 2016-001 – Information Technology (IT) Finding

Condition:

The County's user access review procedures do not include user accounts across all categories, and are not fully documented. Also, requests for user account disables/removals within PeopleSoft, as well as its associated Oracle databases and Linux-based operating systems, are not consistently submitted within a reasonable timeframe following a termination. Lastly, the password requirement settings for the PeopleSoft Oracle databases and Linux-based operating systems are not configured to match the password policy defined in the Information Security Standard.

Criteria:

The County should have a process in place to regularly review user access accounts and permissions within all applications. The process for removing user accounts for terminated employees for non-PeopleSoft user accounts should be completed timely. Password requirements for the Oracle Database and Linux-based operating systems should be configured to match the password policy defined in the "Information Security Standard."

Cause of Condition:

Periodic user access reviews for PeopleSoft systems are not performed. The process for removing user accounts for terminated employees for the Oracle Database and Linux-based operating systems were not consistently submitted in a reasonable timeframe following termination. Password requirements for the Oracle Database and Linux-based operating systems are not configured to match the password policy defined in the "Information Security Standard."

Effect of Condition:

Failure to perform reviews of user accounts within these categories increases the risk that such user accounts may have access to system functions that are not commensurate with their current responsibilities or purposes, and that unneeded or unauthorized user accounts are not identified and removed or disabled on a timely basis. Failure to notify Security Administrators of terminations in a timely manner increases the risk that a terminated employee's user accounts within the various PeopleSoft systems remain active beyond the date of their termination. Such user accounts represent a security risk as they could allow unauthorized access to PeopleSoft or its supporting systems in the event that the user accounts are compromised or somehow utilized by the terminated employee. This therefore increases the risk of unauthorized transactions and unauthorized changes to the PeopleSoft systems themselves. Certain passwords are not up to the standards of the policy and an unauthorized user may be able to access the programs. The combination of these conditions could have a negative impact on the effectiveness of the logical security in place at the County.

Recommendation:

Firstly, it is recommended that the County modify its PeopleSoft user account review procedures to include all user account types, including system/service, contractor, web vendor, and special district accounts, as well as all user accounts utilized by County IT staff (i.e., both individual and personal user accounts, as well as any shared user accounts), to ensure that no unneeded or unauthorized user accounts within these categories exist, and that the permissions assigned within the systems are appropriate. Furthermore, it is recommended that these reviews are fully documented within a ticketing or

COUNTY OF RIVERSIDE, CALIFORNIA
SCHEDULE OF PRIOR YEAR AUDIT FINDINGS AND QUESTIONED COSTS (Continued)
FOR THE YEAR ENDED JUNE 30, 2017

Recommendation (Continued):

change management database, with the appropriate departmental staff (e.g., Departmental Security Liaisons, department heads) confirming the lists of user accounts to be modified or removed, as well as certification from the Security Administrators performing the associated modifications and/or removals that the process has been completed.

Secondly, it is recommended that County departments notify Human Resources (HR) immediately when a termination date is set (and that HR then immediately enter the termination data into PeopleSoft Human Resource Management System (HRMS)) and submit any associated request forms related to removing the terminated employee's access rights within the various PeopleSoft systems at the same time, so that the associated user accounts can be immediately and promptly disabled or removed. It is suggested that this timeline is also followed when a termination date for an internal County IT employee is set in order to ensure that the Security Administrators of the various PeopleSoft systems, including the Oracle databases and Linux-based operating systems, are immediately informed of such terminations. As with non-IT terminations, all requests for the removal of access rights for terminated internal IT staff, whether within the PeopleSoft application itself or its supporting systems, should be fully documented, whether via request forms or in a ticketing or change management database.

Lastly, it is recommended that the County examine and revise where appropriate the password configuration for Oracle databases and Linux-based operating systems and the Password Policy within the "Information Security Standard" document to ensure that strong password requirements have been implemented.

Management Response:

The County does not currently have a process in place to regularly review user access accounts and permissions within the PeopleSoft systems.

The County concurs with this recommendation. The special districts are already included in the County wide audit. Along with the regular audit request to the Auditor Controller's Office we will now be asking the Auditor Controller's Office to review all Web Vendor access. We are also asking the Auditor Controller's Office to incorporate a notification to us via our ticketing system for all vendor terminations. All departments are now also required to review all contractor access for their departments. All requests for account modifications are to be tracked by our ticketing system.

Also, it was noted during our review of the termination procedures that the County does not consistently follow the documentation procedure for requesting and documenting the completion of the termination actions for non-PeopleSoft systems such as database and operating system accounts.

The County concurs with this recommendation. We are reminding our department liaisons of their responsibility to submit all access termination paperwork as soon as they become aware of a termination. They are to submit the request via our ticketing system. This will allow us to track the documentation regarding the termination.

Lastly, during our examination of the password requirement settings within PeopleSoft Financials and Human Resources Management System (HRMS), Oracle Database for PeopleSoft Financials and HRMS, and the AIX operating systems, it was noted that they are not in line with the Password Policy as stated in the County's "Information Security Standard" document.

Although the password requirement settings for the PeopleSoft Financials and HRMS systems have been amended to align with the Password Policy within the "Information Security Standard," the password requirement settings for the PeopleSoft Oracle databases as well as those for the Linux

COUNTY OF RIVERSIDE, CALIFORNIA
SCHEDULE OF PRIOR YEAR AUDIT FINDINGS AND QUESTIONED COSTS (Continued)
FOR THE YEAR ENDED JUNE 30, 2017

Management Response (Continued):

based operating systems on which the databases run are not in line with the "Information Security Standard." The Oracle Database settings for the default profile are set to expire within 90 days. The Oracle Database setting for default profile is set to lock out after five failed attempts. We are in the process of updating the Oracle Database settings for all profiles to limit the reuse of the past five passwords. We are in the process of updating all the Linux-based operating system settings notated to meet the policy.

Current Year Status:

Implemented.

II. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS
